PROJECT NAME:

SANTRAL

- Modello Europeo Registrato
- European Registered Design

Santral rivoluziona l'estetica classica dei lampadari a sospensione. La collezione è altamente personalizzabile nel design grazie ai cavi indipendenti con i quali è possibile creare infinite composizioni sia all'interno dello spazio circoscritto del rosone, sia liberamente all'esterno per mezzo di ancoraggi fissati al soffitto.

Si ottiene così un oggetto d'arredo capace di caratterizzare con formalità e assoluta originalità sia location circoscritte che ambienti spaziosi. Di facile installazione grazie ad un sistema di jack, Santral prevede sorgenti a LED racchiuse in particolari metallici di forma conica, disponibili anche con diffusore in vetro soffiato satinato che impreziosisce ulteriormente la collezione.

Santral bouleverse l'esthétique classique des lustres à suspension. La collection est hautement personnalisable au niveau du design grâce aux câbles indépendants avec lesquels on peut créer d'innombrables compositions à l'intérieur de l'espace circonscrit de la plaque ronde, et librement à l'extérieur au moyen d'ancrages fixés au plafond.

On obtient ainsi un objet de décoration capable de caractériser avec une formalité et une originalité absolue des espaces circonscrits et des pièces spacieuses.

Facile à installer grâce à un système de jacks, Santral prévoit des sources à LED contenues dans des éléments métalliques de forme conique, également fournis avec un diffuseur en verre soufflé satiné qui enrichit ultérieurement la collection.

AGGIORNAMENTO DATI TECNICI/ UPGRADE TECHNICAL DATA

Santral revolutionizes the classic aesthetics of pendant chandeliers. The collection is highly customizable in design thanks to independent cables with which you can create endless compositions within the ceiling rose of the lamp, but also outside of it, through anchors that are fixed to the ceiling.

The result is a piece of furniture able to give formality and absolute originality to small locations but also to big spaces. Thanks to a system of jacks, Santral is easy to be installed and provides LED sources which are inside of conical metallic elements, also available with a diffuser in blown glass that further enhances the collection.

Santral revolutionisiert die klassische Ästhetik der Hängelampen. Die Kollektion ist durch unabhängige Kabel vielseitig im Design personalisierbar. Mit diesen kann man unzählige Kompositionen erstellen, im engen Inneren der Rosette, aber auch bequem aussen durch Deckenbefestigungen. Dadurch entsteht ein Einrichtungsgegenstand, der durch seine Formalität und absolute Originalität in engen Räumen, wie auch geräumigen Umgebungen besticht. Mit einem einfachen Buchsen-Montagesystem ausgestattet, sieht Santral LED-Lichtquellen vor, die in metallische Teile mit konischer Form eingeschlossen sind. Erhältlich auch mit Diffusor aus satiniertem und geblasenem Glas, das die Kollektion nochmals erheblich aufwertet.

Santral производит коренной переворот в классической эстетике подвесных светильников. Коллекция обладает большими возможностями персонализации дизайна, благодаря отдельным проводам, с помощью которых возможно создать бесконечное множество композиций, как внутри пространства, ограниченного потолочной чашей, так и снаружи с помощью потолочных анкеров.

Таким образом, создается предмет обстановки, способный характеризовать формально и с абсолютной оригинальностью как ограниченные пространства, так и просторные помещения.

Легко монтируется благодаря системе jack, Santral предусматривает источники света LED, заключенные в металлические элементы конической формы, которые также могут быть предложены с рассеивателем из дутого сатинированного стекла, придающего коллекции дополнительную ценность.

Struttura: metallo nero opaco.
Diffusore: vetro satinato.

Frame: matt black metal.
Diffuser: satin glass.

Struktur: Metall, mattschwarz.
Diffusor: Satiniertes Glas.

Structure: métal noir mat.
Diffuseur: verre satiné.

Estructura: metal negro opaco.
Diffusor: vidrio satinado.

Структура: металл, выполняется в черном матовом цвете.

Рассеиватель: Сатинированное стекло.
