

STORM MEDIUM LONG 25 cc

STORM SYSTEM®

The Storm Medium Long 25 is part of the STORM SYSTEM® MEDIUM collection. A collection that includes a wide range of special designed products. The STORM SYSTEM® collection is carefully designed to flush the surface of any ceiling or wall, and all products will appear with an absolute minimum of tolerance and visibility.

Storm Medium Long 25 is designed to rotate 360° and allows a 25° adjustment along the longitudinal axis, and is available in different colour combinations.

The crossed-out wheeled bin symbol indicates that the item should be disposed of separately from household waste. The item should be handed in for recycling in accordance with local environmental regulations for waste disposal

INSTALLATION DEPTH

The installation depth may vary depending on the chosen light source.

For specific light source conditions
– review STORM SYSTEM® – INSTALLATION DEPTH ➤

IMPORTANT INFORMATION

Installation and mounting must be performed by a certified electrician only, and instructions must be followed.

Always make sure the main power is off during installation. Pay attention to the fixture remarks, and always make sure to use the correct voltage.

CLEANING AND MAINTENANCE:

Use a soft moist cloth for cleaning. No further maintenance is required.

WARRANTY:

If the product is defect, please contact your supplier immediately. Please note that warranty will not apply in case of wrongful use or if unskilled personnel attempts to repair.

COMPONENTS

- Storm Medium Long 25
- Spring
- Honeycomb

PLEASE NOTE:

If the spring on the fixture is damaged, do not proceed installation – contact your dealer

STORM MEDIUM LONG 25

ASSEMBLY INSTRUCTION

STEP 1

Make sure main power is off!

Pull back the spring

STEP 2

Mount your chosen light source or socket, guide the wire/socket through the hole in the base of the fixture

STEP 3

Mount the Storm Long tube, by gently rotating the tube into place.

STEP 4

Mount the chosen Junction Kit

Then mount the fixture into the plaster ring/back-mounted ring. Do this by slightly rotating the fixture.

NOTE: When rotating the fixture choose the direction with the least resistance.

IMPORTANT INFORMATION

Disassembly must be performed by a certified electrician only, and instructions must be followed. Always make sure the main power is off during installation. Pay attention to the fixture remarks, and always make sure to use the correct voltage.

WARRANTY:

If the product is defect, please contact your supplier immediately. Please note that warranty will not apply in case of wrongful use or if unskilled personnel attempts to repair.

STORM MEDIUM LONG 25
